

SCOTCHGARD™
SOLUTION-DYED
OLEFIN

OUTDOOR PERFORMANCE FABRICS

AXROMA PROUDLY
PRODUCES AND
PRESENTS
SCOTCHGARD™
SOLUTION-DYED
OLEFIN

Olefin is deemed as an environmental fiber that is hydrocarbon and most unlikely to leave microplastic waste. The PMA infused technology is the greenest finishing way in the world that consumes the least fuel, free of PFOA & PFOS, and gives the most enduring repellent performances against various moist and stain substances. The solution-dyed products are the definite solution for functional application and leisure lifestyle.

Axroma Taiwan, Axroma Lianyungang are committed to keep innovating this environmental Olefin product to not only perform above the benchmarks but also be sustainable. We shall enrich the offering with our best endeavors.

Soft Hand

Scotchgard™ Shield
for Easy Care

Mackintosh

A new, nicely textured, and sturdy weave that repels rain and hinders water absorption after storm. The cushion dries very fast and there is no embarrassment to get wet butt when weather is clear. Its super water resistance does not rely on additional chemicals or backing treatment, but comes from the yarn and a finely woven construction. It is curated in essential eight colors, and awaiting your discovery.

Least water absorption

No wet butt

Half drying time

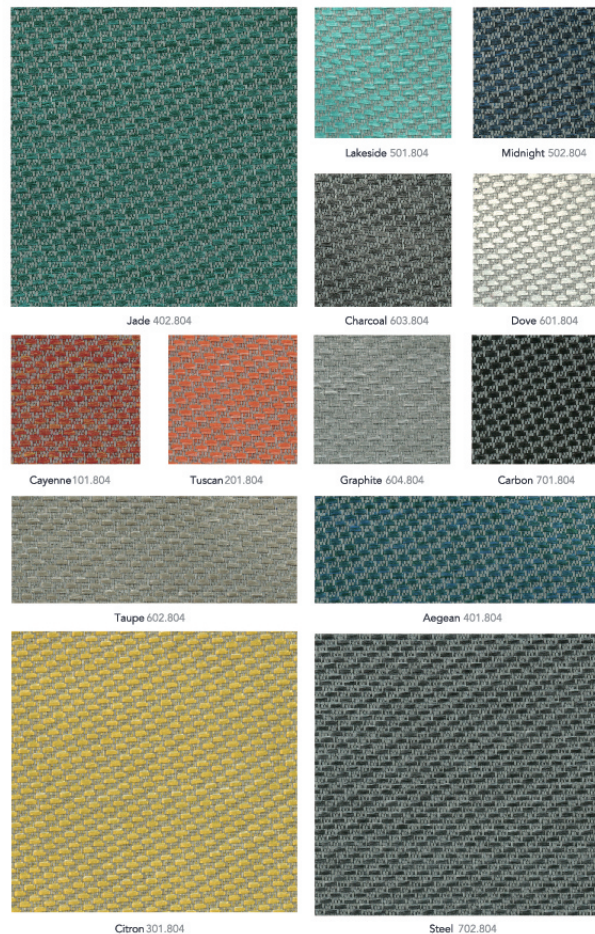

Rain test

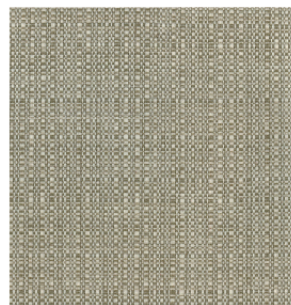

Water resistant
